

**MISSION:** AIA California, in collaboration with local components, is dedicated to serving its members, advancing the value of architects, and improving the quality of the built environment.

## GOAL #1: MEMBERSHIP

Develop the next generation of leaders in the profession, and engage members to create an architectural community.

## GOAL #2: ADVOCACY

Represent the profession before the State Legislature and California regulatory agencies, boards and commissions; and cultivate a strong political base for architects.

## GOAL #3: LICENSURE

Promote licensed architects as valued members of the design, construction, and planning team.

## GOAL #4: PRACTICE

Prepare architects to sustainably and successfully practice into the future.

## GOAL #5: ENVIRONMENT

Position the profession as the credible voice for design in the built environment.

### BEHIND THE SCENES

AIA CA is proud to be among the founding entities of the CALGreen Carbon Collaborative (CCRC), recently launched under the joint auspices of the Division of the State Architect, the Building Standards Commission, and the Department of Housing and Community Development. This working group is taking a broad look at how the California Green Building Standards Code, Part 11 of Title 24 (CALGreen) can better serve California in supporting a movement toward a sustainable, climate-supportive, resilient, and equitable future.

More information on these efforts, including opportunities to participate, are outlined here: <https://www.dgs.ca.gov/BSC/Rulemaking/2022-Intervening-Cycle/2022-PreCycle>
